AKATIFF, C.

Professor Akatiff received such compliments as "outstanding" and "concerned." Except for two holdouts in his Geography 10 course, everyone agreed he was interesting. It is apparent that he is unconventional. This was assumed from such statements as "of little academic worth," "discusses contemporary issues," and "is quite philosophical." Students

agreed that the book was ignored (until the end of the semester) and that tests were based heavily on the lectures. Tests are of average difficulty. He does not dwell on basic concepts, but it was felt that he explained things well. A couple of students felt that his class was an opportunity to think creatively, and three dubbed it the best class they ever had.

CAUTION

AKATIFF ALLEGEDLY HAS ENGAGED TENURED PROFESSORS IN DEBATE IN THE PAST. CONSIDER HIM KNOWLEDGEABLE AND EXTREMELY PROVACATIVE.

An executive directive from this office was issued on July 2, 1971, finding Akatiff guilty of all crimes charged and declaring him unwanted at San Jose State College as of June 30, 1971 (Executive order no. 112, Grievance Proceedings for Academic Personnel of the California State Colleges, section 12.4).

THOUGHT TO BE PLOTTING RETURN. IS KNOWN TO BE UNARMED AND POVERTY STRICKEN, BUT WITH MANY FRIENDS. IF YOU DISCOVER THIS MAN, AVOID CONVERSATION, SINCE HIS ONLY WEAPON IS LOGIC. TURN OFF YOUR MIND, AND CALL A TENURED PROFESSOR TO ASSIST YOU.

Do You Know How Your Federal Tax Dollar Is Being Spent ?

Statistics from Bureau of the Budget, fiscal year 7-1-69 to 6-30-70

Are You Happy With What Your \$ Is Buying ?

Higher living costs and rising taxes and for what? For deprivation, poverty, hunger, violence, polluted air and water, contaminated beaches, poor education, inadequate housing and impossibly expensive medical care. For whom? The low income group? The welfare recipient? No, friend, they pay with the oppression of deprived lives. It's you, Mr. Middle Class, who bears the burden of taxation, even in some cases without representation!

On the other hand, "The Department of Defense and its captive industry have achieved a privileged position in American life, enjoying substantial exemptions from the rules that govern the rest of us. They need not explain what they do. There is no great necessity to tell Congress or the public the truth. 'Promise anything and charge twice as much,' has been the operating creed in defense procurement." (Barnet, The Economy of Death, p. 164.)

FOR EXAMPLE: one Polaris Sub with 16 nuclear missiles, \$122,600,000.
equals, 331 elementary schools, or
6811 hospital beds, or
13,723 dwelling units in low rent housing.

(Melman, Our Depleted Society, p. 37, chap., "Overkill: The Drain on America")

What Can You Do About It ?

There are one or more of several options available to you:

1. For the self-employed, refuse to pay that percentage of your tax that goes for war. Two thirds of your tax dollar pays for wars past, present and future.
2. For those whose federal tax is withheld:
 - a. Refuse to pay at least \$5 of your tax. Besides the burden of collecting the unpaid amounts, the government will be faced with the political fact of massive noncooperation with its warmaking policies.
 - b. Obtain Form #843 Claim For Refund from your nearest IRS office (123 Gish Rd., San Jose) requesting the refund of the 66% of your withholding tax used for wars.
 - c. Refuse to pay the 10% surtax (not withheld) which was imposed in 1968 to pay for the war in Vietnam.
 - d. Join the thousands of U.S. citizens who are refusing to pay the federal phone tax revived in 1966 to help pay the cost of the war in Vietnam.
 - e. Sign the petition being circulated in Santa Clara County addressed to the Congress and President of the United States indicating that you are paying your taxes under duress and that you urge a complete reordering of our national priorities. *
